

# Ahmed Esam Abdelsalam

## Junior Flutter Developer

Phone: +20 101 783 7378 | E-mail: ahmedesam2772@gmail.com | Location: Cairo, Egypt | [LinkedIn](#)

### Profile

Junior Flutter Developer with 1+ year of professional experience delivering mobile applications across booking, delivery, social, e-commerce, healthcare, and automotive domains. Skilled in BLoC/Cubit state management, Clean Architecture, and RESTful API integration, with experience building multilingual, RTL/LTR-aware user interfaces. Comfortable moving across app domains and adapting quickly to each project's structure and business logic.

### Education

|                                                                                                                                                                                                                                                         |                               |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------|
| <b>BSc. Degree in Information Technology</b><br><b>Egyptian E-Learning University (EELU)</b> , Fayoum Branch<br><b>Graduation Project:</b> YourSeat — cinema seat reservation with an AI assistant and a Flutter Web admin dashboard   <b>Grade:</b> A+ | <b>Sept. 2021 – Jun. 2025</b> |
| <b>Flutter Development Diploma</b> , Route IT Training Center<br>Accredited by the Egyptian Syndicate of Engineers   120 hours, 5 practical projects.                                                                                                   | <b>May 2023 – Nov. 2023</b>   |

### Professional Experience

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                            |
