

Ahmed Esam Abdelsalam

Junior Flutter Developer

Phone: +20 101 783 7378 | E-mail: ahmedesam2772@gmail.com | Location: Cairo, Egypt

Profile

Junior Flutter Developer with 1+ year of professional experience delivering mobile applications across consultation/service booking, property booking, delivery, and social domains. Skilled in BLoC/Cubit state management, Clean Architecture, and RESTful API integration, with experience building multilingual, RTL-aware user interfaces. Comfortable moving across different app domains and adapting quickly to each project's structure and business logic.

Education

BSc. Degree in Information Technology Egyptian E-Learning University (EELU), Fayoum Branch Graduation Project: YourSeat Mobile Application for cinema tickets booking with two dash boards Grade: A+	Sept. 2021 – Jun. 2025
Flutter Development Diploma , Route IT Training Center Accredited by the Egyptian Syndicate of Engineers 120 hours, 5 practical projects.	May 2023 – Nov. 2023

Professional Experience

Junior Flutter Developer — Nahr Development Remote — Cairo, Egypt	Aug. 2025 – Present
- Collaborate with the Flutter team, backend developers, and UI/UX designers to implement features and resolve technical issues. - Build responsive and scalable mobile applications using Flutter, Dart, BLoC/Cubit, Clean Architecture, and RESTful APIs. - Develop and maintain Flutter applications for clients across the Gulf and Egyptian markets, contributing to features from implementation through release.	

Projects

Qarar App
Overview: Consultation booking platform for scheduling voice and video sessions with doctors, lawyers, and financial advisors, including a document upload flow for charity committees. Developed UI screens and integrated RESTful APIs. Technologies: Flutter, Dart, Cubit, Clean Architecture, REST APIs, Dio, Localization (RTL/LTR), PayMob Payment Integration.

Booking App

Overview: Property booking application covering search, property listings, the booking flow, and reservation management, with recent work on FCM token flow and async Cubit lifecycle stability. Technologies: Flutter, Dart, Bloc/Cubit, Clean Architecture, REST APIs, Dio, Firebase, FCM.
--

Fresh Driver App

Overview: Delivery driver application with real-time order tracking and delivery management, built with RESTful API integration and Google Maps. Technologies: Flutter, Dart, Cubit, REST APIs, Dio, Google Maps, Firebase.

Quartz App

Overview: Social media application with posts, comments, likes, and saved posts, supporting image and poll posts, post sharing, and a profile section for editing name, nickname, and profile photo. Developed the UI and integrated RESTful APIs. Technologies: Flutter, Dart, Cubit, Clean Architecture, REST APIs, Dio, Hive, Shared Preferences.
--

Additional Projects

Trimly, Full-day-24, Car Club, Rawnaq — UI development Shaky Eissa — UI development and RESTful API integration MAS — Multi-service application Re3ayaPlus, Nagaa — RESTful API integration.
--

Technical Skills

Programming Languages: Dart, Java, Python, C++, HTML, CSS, JSON. Mobile Development: Flutter, Flutter Web, Responsive UI, RTL/LTR Layouts, Localization (i18n). State Management: Bloc, Cubit, Provider. Architecture & Patterns: Clean Architecture, MVVM, Feature-based Structure, Dependency Injection. Networking & APIs: RESTful APIs, HTTP, Dio. Databases & Integrations: Hive, Shared Preferences, Firebase, FCM, Google Maps, PayMob Payment Integration. AI-Assisted Development: Claude, ChatGPT, Google Gemini, GitHub Copilot. Tools & Platforms: Android Studio, VS Code, Postman, Git, GitHub, Jira. Soft Skills: Teamwork, Attention to Detail, Adaptability, Creativity. Concepts: OOP, Data Structures, Algorithms, Problem-Solving, Agile Methodology.

Languages

1 - Arabic (Native)	2 - English (Professional Working Proficiency)
